SATURDAY, SEPTEMBER 5, 1885.

ASSOCIATED PRESS TELEGRAMS

HAVAS AGENCY

Madrid, 4th.

Great animosity continues to prevail against Germany, with regard to the Caroline Islands question which has not yet been arranged.

Paris, 4th.

According to advices from various Spanish provinces, it would appear that the internal political situation of the country is somewhat strained. The opposition parties are most active, and an anti-dynastic movement would not be a matter for surpise.

Berlin, 4th.

The marriage is officially announced to take place on Sept. 20 of the Grand Duke of Baden with Princess Hilda Charlotte Wilhelmine, daughter of the Duke of Nassau.

London, 4th.

The strike of the workmen in the Armstrong foundry continues. No arrangement has yet been arrived at with the men.

PRESS TELEGRAMS.

Paris 2nd—Within the last 48 hours 82 fatal cases of cholera occurred in Marseilles and 78 in Toulon.

Madrid, 3rd—Yesterday 1,507 fatal cases of cholera occurred throughout the infected provinces.

Toulon, 3rd—Cholera is increasing. The greatest alarm prevails, and all the markets are deserted.

Madrid, 3rd—The Spanish Ambassador in Berlin telegraphs that the official note from the German Government with regard to the Caroline Islands Question is couched in courteous terms, but is far from being satisfactory.

Berlin, 3rd—The *Courrier* of Posen publishes the names of the Polish residents to be expelled from Prussia.

Dublin, 3rd—In a speech last night, Mr. Parnell ridicules the belief entertained by many English people that the Tories will not oppose the Irish party in their struggle for independence.

London, 3rd—Cabul is very quiet. The Ameer has sent orders to his agents in Bombay for uniforms and war material.

London, 3rd—The contractors, Messrs Bowen & Co., have failed in consequence of heavy losses in contracts with Brazil.

Paris, 3rd—Admiral Courbet's remains were interred at Abbeville, the native town of the deceased.

Paris, 3rd—It is stated that the Minister for Foreign Affairs, M de Freycinet, will not visit Lord Salisbury until he is informed as to the object and result of the British special mission to the Ottoman Government.

Constantinople, 3rd.—The Sultan does not relish the idea of Turkey occupying Egypt. He is equally averse to an Anglo-Turkish occupation.

London, 3rd—Over a thousand workmen in Armstrong's foundry have struck, owing to the non-withdrawal of several managers little liked by the men.

St. John (Newfoundland) 3rd—The Allan Line steamer Hanoverian foundered off Cove, at a distance of 14 miles from Cape Race. The vessel is irretiervably lost but it is expected that the passengers and cargo will be saved.

Rome 3rd—M. Floury, one of the officials of the treasury, was caught stealing public funds, in consequence of which he committed suicide.

The Italian Exploring Expedition has returned from Zanzibar.

London 3rd—The severest quarantine measures are being taken in Malta and Athens.

Rosario 4th—Dr José Echenique has left for Buenos Ayres on a mission relating to the arrangement of the Cordoba and Santa Fé boundary line.

The Municipality sits to-day.

The weather looks stormy.

Montevideo 4th—An institution, thanks to the efforts of Dr Cansanello, will be established in this city for the caring and protection of poor children suffering from croup. Dr Casanello is a specialist in this disease.

A deaf and dumb Asylum will be established in this city towards the end of this month.

According to a telegram from Consul Cranwell in London, Unifieds are quoted at 52½ on that market.

The National Inspector of schools is about to make some sweeping reforms in the Government schools.

The Massenet Company made their debut last night, and met with a most flattering reception from the public.

It is rumored in high political circles that Minister Zorrilla will be shortly named Oriental diplomatic representative in Buenos Ayres.

IMMIGRATION RETURNS.

Immigration from Europe to the Plate in the winter months is, generally speaking, less active than at other periods of the year; and we are not to be surprised into any admission that immigration is falling off because last month's returns only amount to five thousand.

We must not forget that the ports of this country are closed to Spain, and we believe to Marseilles, owing to the cholera; and, under the adverse circumstances of the season, it is really astonishing that our returns show as well as they do.

The following are the official figures compared with same month last year:—

	Aug.'84.	Aug.'85.
Steamers arrived....	38	28
Passengers do.....	478	1075
Immigrants do.	5220	4356

Our readers may not have seen a rather interesting paragraph in Wednesday's *Diario*, giving the import of an interview held by a gentleman from the River Plate with Lord Salisbury on the subject of Irish emigration to the Plate; and it is possible that, Lord Salisbury's attention being drawn to the matter, his Government may promise some assistance to help Irish emigration to this country, although we must say that we very much doubt it, since the British colonies, it must always be remembered, are in the market and need all the emigrants that Great Britain and Ireland can supply.

Whilst discussing this subject of Immigration we may note that the Registrar-General in England has just published his 46th Annual Report, a most interesting paper. From it we learn of the steady depopulation of poor old Ireland. The figures speak for themselves:

POPULATION OF IRELAND.

1801.....	5,216,000
1831.....	7,768,000
1841.....	8,200,000
1851.....	6,514,000
1861.....	5,789,000
1881.....	5,144,000
1885.....	4,918,000

It will be observed that from about 5½ millions in 1801, there was an increase by 1841 to just 8½ millions. The largest record is in 1845—8,295,061 persons; and every year since 1845 the country has contained fewer and fewer inhabitants, till the estimated population now is but 4,918,338 souls. At this ratio of decrease, it may well be asked, how long will it be before the dismal prophecy of the Irish pessimists is fulfilled—that unless there be a radical change in the existing political, social and economic conditions of the country, another half century will see it well nigh depopulated? The widespread and terribly fatal famine in 1847 made the soverest breach in its population; and since that time, as is well known, the steady outflow of emigration has systematically contributed to the depression. And from present appearances the outflow is to go on. What Ireland has lost, however, America has gained; and it is not too much to affirm that no small proportion of the best bone and sinew of the industrial classes not only of the United States and Canada, but also of this country, has been recruited from that source.

We cannot hold out, however, much hope of any greatly increased Irish emigration to the Plate, in view of the Registrar-General's figures above given. The nineteenth century, with all its glamour, shows depopulating statistics in Ireland. Not so in Scotland and in England; but we hold the Registrar's returns for another chapter. It is not necessary to wander along Lough Neagh's banks to interpret the full meaning of those melancholy Irish figures of the Registrar-General.

THE ARGENTINE WHEELWRIGHT.

At last! Congress and the National Government are beginning to appreciate the admirable financial combinations of Dr. Lucas Gonzalez, who has constructed for the Government of Santa Fé a fine line of railway from the capital of that province to the Colony of Lehmann, 160 kilometres, without having cost that Government one brass farthing. We have, in our chapters last July on the inauguration of that railway, explained to our readers the principle and system of this most admirable arrangement, and which, we are happy to say, will now in all probability be carried out on a still larger scale, and adopted by the National Government for the conclusion of its railway works.

Nothing can be simpler or more easily carried out. The National Government, for instance, wants to continue the Tucuman railway to Salta and Jujuy; so many kilometres and so much per kilometre; Mr. Gonzalez takes over the whole work, and receives from the Government, for every section finished National Bonds, 5 per cent interest at fixed rate. These bonds are placed in the hands of the London bankers, who hold them for the contractors, and the service of these bonds has to be met by the contractors until the line is opened to public traffic, which forms an additional incentive to make the contractors finish the work. On the opening of the line to public traffic, the earnings are pledged to the payment of the service of the Bonds, and in case of deficit the Government is bound to make it good from the general revenue, to be repaid from the subsequent earnings of the road.

The brilliant success of this system in Santa Fé, has just fired up the energies of the Government of Entre Rios, and on equal terms Mr. Gonzalez is now constructing his railway from Parana to Gualeguaychu, but progress is contagious and now we have the Committee of Congress and the Minister of Hacienda interviewing this Argentine Wheelwright, and before Congress closes we hope to chronicle that all our National Government Railways are to be concluded on same easy and inductive terms.

Possibly, it is worthy of remark, that whilst Messrs Tornquist, D'Abreu, and Christophersen are vainly waiting for Congress to despatch their various and essential railway schemes, Mr. Gonzalez takes the steamer to Santa Fé, proposes, contracts, constructs, and even opens to public traffic his Colonies railway, before the dull Committee of the House has even despatched their "solicitudes." There is a certain vain transitory splendour about the Senators and Deputies of Congress that throws a species of congressional halo over all these forgotten railway projects and schemes. Had Mr. Lucas Gonzalez taken these measures in hand, we should now have the railway running from Bahia Blanca to Patagones, and from the Nueve de Julio to Trenquelauquen; but Congress has stopped everything. It is the most awkward, unwieldy and expensive institution in the whole country.

Had Congress any jurisdiction or interference with the Santa Fé Colonies Railway, Mr. Lucas Gonzalez might now be whistling jigs to some Santa Fé mile-stone, and we look forward with fear and trembling to the reports of committees, debates in the House, and, last not least, interpellations of Ministers and Engineers; all which have to be gone through, before we can say to Mr Gonzalez, as the Governor of Santa Fé has said to him. "Sir we want the railway; we want you to build it for us; you to pay for the work; you to open it to public traffic, and then hand it over to us as our own."

LA PLATA.

Governor D'Amico's last reception on Wednesday evening was the most brilliant of the season. The magnificently furnished suite of rooms in his charming Chalet just inside the Park were crowded with a galaxy of grace, elegance and beauty rarely to be seen in South America. Some of the dresses were astonishingly superb and the marvel is where are the dress-makers who designed and executed the various novel toilets which swept the rich carpets of the popular Governor. La Plata boasts of many things, from the Electric light to tramways, but we have yet to learn that a Parisian Modiste has started a branch establishment in the New City "the mortar" for which "has been mixed with the tears of the poor" according to the correspondent of a contemporary who we fear occasionally walks round Truth.

Governor D'Amico is an exceptionally good host and his señora is no less gifted with the art of entertaining in a graceful and dignified manner. After the supper, which was of a most recherché description, a cotillion was danced and seemed to afford endless amusement to the large number of "wall-flowers" as well as the dancers who took part in this old-but-yet-new tripping of the light fantastic toe. Señorita Madero was the leader in this Cotillion which lasted for about an hour and a half. Laughter and applause continually greeted the various choices of the demoiselles who had to select their partners from a "posse" of applicants for the high honor of a turn of the waltz, and many a chagrined visage was visible amongst the gentlemen when their presumptuous overtures were summarily and ruthlessly dismissed. When it came to putting on a huge Pantomimic Mask it became a physical as well as a mental joke, because the poor victim had to dance and breathe in a sort of solid head gear. The profusion of designs in flowers was immense, nearly the whole of the wall space being covered with them. At a rough calculation there were 2000 camelias on the walls and in flower-stands, whilst violets were almost overpowering with their fragrance. Great credit is due to Messrs Cassels and Co. for the very excellent way in which the electric light behaved itself. Without this adventitious assistance many a nook and corner might have been unrevealed, but as it was every square inch in each apartment was clearly artistically and cleverly defined. The ladies dresses also seemed to show up better under the strong beams of electricity which is not always the case. The "Governess", as we heard several English guests call her, was resplendent in a red and black brocaded satin, and her two charming married daughters in grey brocaded satin were much noticed and admired. A young English bride with her ivory satin and pearls attracted attention, and with her husband seemed quite at home in all this unlooked for gaiety in La Plata. Many new faces were discernible but all seemed to appreciate the hospitality of the ubiquitous and zealous Host and Hostess. It was near the dawning of the day when the first visitors began to depart, and it was brilliant sunrise and broad daylight when the last carriage left the chalèt. It is to be hoped the business of the city did not suffer on Thursday morning through the absence of many Government officials, who scarcely had retired to their virtuous couches before 7 or 8 o'clock.

THE SS. REGINA MARGHERITA.

San Vicente, Aug., 1885.

To the Editor of the STANDARD.

Sir,

At Montevideo, on the 29th July, the Regina Margherita and the Pacific Co.'s ss. Magellan weighed anchor and simultaneously saluted each other by dipping their flags—one taking her course for the Magellan Straits, and the Italian steamer for San Vicente.

No person can travel by these steamers without being convinced (as your Brother Editor has frequently recommended) of the necessity of a "Board of Trade," were it for nothing else but to regulate this third-class passenger traffic between Europe and South America. There is too little space provided for third-class passengers; also, they have too much liberty. They seem to do as they like. They smoke, strike matches, throw about stumps of cigars and pipe ashes, regardless of consequences. They also seem to sleep when and how they like in the most promiscuous manner.

The division of time on board for meals is good. Coffee at 7.30 a.m., breakfast at 10.30, dinner at 5 p.m., and tea at 8 p.m. This system would be a great improvement if adopted by the English lines, who divide the day more or less as follows:—Coffee at 7 a.m., breakfast at 9, lunch at 12, dinner at 5 p.m., and tea at 8. The lunch meal is a nuisance, and on the Italian system would be done away with, and besides contribute more to the health of the passengers.

The first and second-class occupy the grand dining-saloon, divided in the centre by a rich heavy damask curtain. The table service is the same for both; the difference is in the state room and berths, the second-class being somewhat smaller than the first, but I think better situated, being at the stern of the vessel. The first-class sleeping apartments are nearer the heat of the boilers, though larger in size and better lighted. There are two smoking-rooms with a good piano in each: the first measures 50 x 20 feet, and is very luxuriously fitted up; the second is in the stern sheets, very comfortable, but short of light. The quarter-deck, or promenade, is open to first and second indiscriminately, and greatly taken advantage of. As a rule, the food supplied cannot be objected to. It is curious, there is quite an over-service at table, while in the sleeping department there is quite a want of attendance, and the "attentions" connected with the water-closets anything but what they ought to be.

The baths are good, but are charged for at the rate of 1 franc. This ought not to be, as the supply of water outside the ship is plentiful enough, and the trouble to turn the cock to fill the bath by other lines is not considered an item of expense. Considering the bath in a health point of view, the company would be nearer the mark to give a premium to those who used the bath instead of charging.

The navigation of the vessel is well attended to—a commander, a captain and three mates, all very polite and seem to be intelligent men; but I hear on board that the crew is short in numbers for the work to be done. Judging from the dirty state of the decks, this may be true.

In the machinery department all are Italians. Personal cleanliness and style of dress are completely ignored. One of the officials in the engine-room had a collar of dirty, oily, used cotton-waste round his neck, which reminded me of one of A. Ward's characters, who annointed his hair with "sweet-scented cart grease." The engines are very dirty. It is a pity to see such fine work so neglected. They have been working all the way at an indicated horse-power of 4,500; they work as smooth as a watch, and with about the same noise.

We have 600 passengers on board, 510 3rd-class and 90 1st and 2nd, six life-boats, an over compliment to each would be 40 persons! No life belts in the berths or to be seen anywhere except about a dozen stuck round the rail of the quarter deck! During the passage I have not seen an officer on duty on the quarter deck! One *always* on the "bridge" and sometimes two, I presume the others are in the navigation room and on duty, as the safety of all on board certainly depends on them and the machinery department. The Regina Margherita is 137 meters long and 13½ meters wide, patent stearing gear, patent compasses, and all the newest inventions connected with the constantly improving methods in steam navigation. We have a barber-shop on board, and Mr Clip does a splendid business. I have not seen a a log-line out during the voyage, though two days we were without the sun at 12 o'clock noon. Electric lights are all over the ship and in the saloons, and give no trouble; the light is pleasant, steady and continuous.

This splendid steamer was built and engined at Glasgow, and must be quite equal to the best vessel ever turned out from that famous workshop, though perhaps not the largest. When the Regina Margherita was delivered to the present company she must have looked dressed like a Queen at her coronation, but there is a deal of gilding off now, which ought not to be as all the decorations are of the most solid character.

The distance from Montevideo to San Vicente is 3720 miles; we have made this run in 11 days, six of which were with head winds. The weather has been exceptionally fine all the way. In seven days from this we expect to be in Genoa where I take rail for London via Calais and Dover arriving in London on the 19th day from Montevideo! I recommend this route to Englishmen; if they care to run the risk, it has the merit at all events of being a novelty, I shall now finish in the memorable words of the immortal 'Artemus' "I don't pretend to be a cricket and consequently the reader will not regard this 'ere lines as a crickatism."

Y.

LONDON LETTER.

LANGUID WEATHER.

(From our own Correspondent.)

July 24th.

An east wind in July is heaven. An east wind in May is the very opposite. I am seated at an upper window in the Liberal National Club. The vane of St. Martin's steeple points eastward and moveth not. You, fellows, who see a blue sky every day may have, perhaps, forgotten the sensation we enjoy at seeing cabs and omnibusses in their real colours, and not looking like shadows; and, at this moment, there swallow on Lord Nelson's hat, a[illegible] I could put my hand forth [illegible] and catch it. In vitos. mind you, and for ten months [illegible] year, you cannot even see the [illegible] the month of June, nomina[illegible] mer month, we had fine [illegible] a few hot days, but yea[illegible] find out that in this c[illegible] commences about the [illegible] lasts till the end of S[illegible] say that while it [illegible] near Paradise as so[illegible] get. Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon this wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Great credit is due to Major Turner, of the Intelligence Department, for the skilful manner in which he arranged Bouoni's escape. Sir R. Buller considered the sum of 100*l.* too much, and would not sanction this on his own responsibility. Lord Wolseley was telegraphed to, and he sanctioned it. The total expense was about 150*l.* This, as far as is yet known, will not be repaid either by the Latin mission or by the Italian Government, as is erroneously supposed. The money comes out of the Secret Service Fund. It should be clearly understood that it is the British Government that pays this ... It is to be observed that Sir C. ...lson, I. D., always declared that it ...e impossible to get a messenger ...d. Major Turner, his suc- ...ffice of the Intelligence ...s managed to show the ...tement.

Al mismo tiempo

Remitido por el mismo señor

Dos Carneros—Cotswold, de 16 a 18 meses de edad, habiendo obtenido premio mas de ellos.

Dos Carneros—Shropshire Doron de 15 meses.

Ambas especiales son de sangre pura. Todos estos animales pueden verse en nuestra cara Alsina 88. c 170 a24 s5

POR LOS MISMOS

UN ESTABLECIMIENTO

DE

CAMPO

SITUADO

En el partido de

LINCOLN

A cuatro leguas de Junin con los ferro-carriles del Oeste y Transandino

DENOMINADO

SANTO DOMINGO

2[illegible],000 leguas cuadradas alambrados de acero, con excelentes poblaciones, corrales, montes, pozo surgente, etc.

En nuestra casa

78—ALSINA—78

El Viernes 18 de Setiem.

A las 2 p.m.

Remataremos a la mas alta postura y dinero de contado, por orden terminante de sus propietarios.

El establecimiento arriba indicado, situado en el cuartel 5º, partido de Lincoln, denominado Santo Domingo cuya area se compone de 2:170 leguas cuadradas, lindando por el Norte con D. Joaquin Ledesma, al Sud con D Antonio Lopez (hoy sus herederos) y Francisca Nobo; al Este D Francisco Sosa, al Oeste D Juan Henestrosa; perfectamente alambrado por sus cuatro costados, con alambre de acero de Creusot, 6 hilos, postes a 10 varas, varillas intermedias de alambre torcido.

Las poblaciones se componen: la estancia principal casa de azotea con 9 piezas, cocina y un cuartito. Otra casa con 4 piezas para el servicio; una casa de material techo de teja de canaleta con cocinas para piones y cocheras, un galpon techo de paja con 3 divisiones para caballeriza, deposito para cueros y gallinero, un galpon techo de paja para cerdos; otro id id para carneros; una pieza de material techo de paja para la carne, dos pozos de balde, otro gran galpon techo fierro de canaleta, un gran pozo surgente con gran noria 75 vs. de bebida circular de material en tierra romana y cal, alambrado y rodeados de sauces.

Puesto: la chacra con casa de azotea, con 2 piezas, pisos de tabla, una cocina y un rancho de adobe, techo de paja con 2 piezas, un corral cercado de sauces, un jaguel, un pozo y otro puesto con casa de material, techo de fierro, con 2 piezas, pozo, quinta alambrada, con sauces, paraiso y duraznos; puesto la Portada, con casa de material de 2 piezas, techo de fierro quinta alambrada, un pozo de balde; otro puesto con rancho de adobe, techo de fierro, cocina techo de paja, pozo y quinta sanjeada con 3,000 sauces; otro puesto La Chacra con un rancho, de 2 piezas con techo de paja, pozo, corral, alambrado, posterias de ñandubay y acacias; alambrado de 120 cuadras, un potrero de 10 cuadras por costado alambrado y otro potrero con doble zanjeado y plantado de sauces y cina-cinas y ñandubay y para trabajar la hacienda y otro potrero sembrado de alfalfa; un potrero para encerrar caballos, otro corral mas y corral de ovejas, postes de ñandubay, lienzos y alambrado.

Una quinta al lado de la estancia, compuesta de ocho cuadras cuadradas, alambradas y sanjeadas, con jardin, glorietas, arboles de adorno y 60,000 arboles de sauce, mora, eucaliptus, acacias, alamos, paraisos, duraznos, manzanos, etc., etc, en perfecto estado todo.

Es un establecimiento por lo que se ve, de primer orden y en perfectas condiciones para esplotarse debidamente; pues actualmente existen allí 1000 cabezas de ganado vacuno, que han estado durante todo este tiempo de seca y pagando $5 m/n de arrendamiento por cabeza.

El campo esta marcado en el registro grafico de la Provincia con el nombre Julian Sosa y el en plano Maineke con el de Julio Becker; su calidad es superior y reputado como de los mejores del partido de Lincoln por su variados y abundantes pastos.

Dista solo 4 leguas de Junin que hoy esta unido a la Capital por dos lineas, la del Oeste y Trasandino, facilitando asi la comunicacion y el trasporte de los frutos y haciendas y permitiendo al propietario llegar en el dia a su establecimiento.

Los interesados pueden ir a ver el establecimiento sin necesidad de carta-orden, teniendo orden el encargado de hacer ver el campo.

Por planos, pormenores, etc., ocurran a nuestra casa Alsina num. 78.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than *Dr. Browne's*—*See Times*, July 13th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ON 'CHANGE

September 4th, 1885

Gold	41.50 o/o prem
Cedulas E	81
Cedulas F	80½
Cedulas G	87½
Nat. Bank Certificates..	110

There was a breezy atmosphere on 'Change this morning, and operations round the ring followed each other in such rapid succession that nobody would have supposed that the market had just emerged from the meshes of one of the most disastrous settlements. The market opened to-day with all the symptoms of a brisk speculation, and the contest during official hours was lengthy and uncertain. Some of the big bulls have begun to sell since yesterday, but the market is not deceived by these speculative tactics. The atmosphere on 'Change is becoming daily more bearish, and operators on the bearish side appear to gather fresh courage with every successive fall in the premium.

Operators are perfectly aware that they are treading on dangerous ground. The market is in a condition that might well frighten both buyers and sellers, but dealers are gaining confidence in the prospective speculation for the end of October. It is, however, prudent to bear in mind that the bulls hold the market at present in their hands. The Bolsa owes very heavy amounts of gold; the market is uncovered and the Banks also, and the bulls hold the gold and the elements necessary to push the market. Under present circumstances the bears are utterly unable to oppose the bulls, and they are aware of the fact.

The greatest lift that the bullish speculation could receive is the sanction of the Forced Currency Bill, at present before the Deputies. The IVth clause of the bill creates such a whirlwind in the market that the bill has been very properly dubbed a Repudiation Act. If this bill is made law, we may imagine the dust that will be kicked up in the London market, where the bill will be considered rank repudiation. Such legislation will hunt capital out of the country, and will produce a state of affairs, similar to that we are witnessing in Chile. It is needless to state that opinions are divided in this market, as many local interests are favored by the bill, but the sweeping majority of the people condemn the bill and the ruinous policy therein advocated. The success of this bill will be a triumph for the bulls.

The official organ continues its strong attacks against the inflated circulation of the Provincial Bank. Our colleague advises the deputies to introduce several important amendments into the Bill, the principal one to reduce the issue of the Provincial Bank to 17 millions. There is not the slightest doubt that the main cause of the very high premium on gold is the plethora of paper money, but as we have stated before it is idle to propose a restriction of the circulation on the eve of the busy season, when the circulation of both State banks will hardly suffice to meet the demands of the farmers. If the truth be told, there is a visible desire to maim the Provincial Bank and increase the power of the National Bank, and such undisguised hostility in such influential quarters is beginning to seriously preoccupy the market, as antagonism in these banking matters affects the market far more than the banks. The whole market is talking of the matter, and comments on the question are pretty strong in all quarters. Instead of working in harmony, of pulling together through the shoals of the crisis, we see one bank attacked; a further issue of paper money advocated, on one hand, a restriction advised on the other; and, to crown the bungling, the Senate votes repudiation in the Forced Currency Bill and the Deputies are expected to follow suit.

Under the circumstances it is a pleasure to see the gold market falling, in spite of many facts that favor a rise. The speculation this morning looked livelier than ever, and there was a buoyancy in the situation that surprised all. About one hundred thousand dollars changed hands for cash and for the 5th. The market opened at 42, rose to 42¾, and closed at 41½. Nearly eight hundred thousand were sold for the end of the month. Rates opened at 41½ and closed at 41. Sixty thousand were sold for the end of October at 39½ and 39, and 25,000 for the end of November at 39 and 38. Operations during official hours amounted to over a million dollars. The market fluctuated a long time between a rise and a fall, but ultimately closed under opening rates, with a flat tendency.

There were rumors in the market to-day that telegrams had arrived from London announcing that all hopes of patching up the loan business may be abandoned. This sounds strange, at a moment when all are awaiting the arrival of the national commissioner to see matters mended in this regard. It is generally opined that if the Forced Currency Bill is made law the loan business will fall through, owing to the bad impression that such a measure would make in the London market. What frightened millions of capital out of the country last year was the imminence of forced currency and the uncertainty that hung around the forced currency legislation or repudiation, which all condemn in the strongest terms.

The market will be glad to hear that Mr Oldham, the popular manager of the Montevideo Telegraph Company, has acceded to the request of the Pagaré Committee, and that henceforth telegrams will be payable in paper or gold, at the option of the sender.

Fifty thousand sovereigns were shipped from England yesterday for account of the Provincial Bank. The Bank Boards should study the causes of such a stiff premium in the face of such large remittances of specie. The market has risen for the last two months, in spite of the arrival of £400,000 for the National Bank and of from two to three hundred thousand for the Provincial Bank.

Cedulas E and F advanced to-day; the former were sold at 80¾-81 and the latter at 80½. About 30,000 Series G were sold at 87½ for cash and 87 for the end of the month. Three hundred Certificates were sold for the end of the month at 110.

Messrs. Moore & Tudor have imported a new patent pump called the Simplex Pump, the cheapest and most convenient of its kind invented up to the present. It can be carried about and immediately applied to wells, 'algibes', 'jaguales', or 'lagunas'. We recommend this new pump to farmers and estancieros.

The R.M.S. Tagus has arrived at Montevideo.

The following is a summary of operations effected this morning at the ring during official hours:—

Gold—
For cash 40,008 at 142-142·50-142-141.60 to 141.50
For Sept. 5th 50,000 at 142-141.80-50
For Sept. 7th 15,000 at 141.80
For Sept. 15th 55,000 at 142-141.50
For Sept. 30th 775,000 at 141.50-141-141.10 to 141-141.50-141-141.20-141
For Oct. 31st 60,000 at 139.50-139
For Nov. 30th 25,000 at 139-138
Sales, 1,020,008
Cedulas—
For cash E 26,250 at 80¾-81
For cash F 6,000 at 80¾
For Sept. 5th G 4,000 at 87½
For Sept. 30th G 23,000 at 87
Sales, 59,250
National Bank Certificates, 70 o/o paid—
For Sept. 30th 300 at $110

If we except the members of the Bolsa, everything in the Calle Piedad exchange building will be brand, flaming new. The old porter pleaded to take an old piece of furniture and his bell, but even the bell will be new, and the only relics of the Calle San Martin that will grace the new building are the personnel and members of the Bolsa. The change will be great, and the habitués of the hall will not feel comfortable in the new building, until the polish is worn off the chairs and benches and the first monthly settlement is inaugurated in a manner satisfactory enough to wipe out the recollections of the last liquidation held in the Calle San Martin.

The following sales of property were effected to-day:—

Building site, Calle Santa Fé No. 66, 15½-¾ varas by 65, for 15,000 $m/n. Buyer, Mr. Alex. Ferrari.

Building site, Calle Callao, between Juncal and Chavango, 17½ vs by 42, at the rate of 17,500 $m/n per yard front. Buyer, Mr. Gmo Gonsalez.

The exchange market ruled quiet to-day. One of the State banks took fair amounts, and made a weak impression. Rates are nominal for the moment. The money market continues easy, but some tightness is expected next month, as the demands of the produce season will begin to be felt.

The gold market ruled dull and weak during afterhours. A few hundred thousand were sold at 41¾ to 42 for cash and for the end of the month, and 38 for the end of November. The market closed at 41½, sellers for the end of this month.

Telegrams from Valparaiso quote exchange on London at 23 d. This is a slight improvement.

The following are the tenders presented today to the Board of Railways of this Province for the supply of 18,000 tons of Cardiff coals in 1886:—

	At Ayres. Bs.	At Pts. Lara.	At S. Nicolas.
	$ m/n.	$m/n	P. Ton $m/n.
Estevan Barzane	10	11	11
Rivolti Carboni	10	10	10
Portalis Frs. Carbonier	9 95	11	11 25
M Garreste & Co.....	10 75	11 75	11 75
Francoini	10 45	10 45	10 45
Arthur & Co	10 70	11 70	11 70
Storni	10 20	10 90	10 90

"Tallow—
Beef at 29-30s per cwt.
"Stock of beef and mutton tallow, 6,000 to 6,500 pipes.
"Hides—
"Salted novillo hids, 63 lb, 6¼d per lb.
"Stock, 14,000-15,000 hides.
"Salted potro hides, 30 lb, 11½-11⅝s each.
"Stock, 7,500-8,000 hides.
"Linseed—
"At 39-40s per 416 lb.
"Maize—
"At 4⅜s per 100 lb
"Wheat—
"At 6¾s per 100 lb.
"Bones—
"R. Plate bones £4 19s to £5 per ton on shore.
"Ash—
"R. Plate ash (70 o/o) at £4 7s to £4 8s per ton, on shore.

"Antwerp, Sept. 3rd

"Wool—
"B. Ayres wools of 30 o/o yield are quoted as follows:—
"Superior qualities, f.1.25-1.27½ per kilo.
"Middling, ff1.12½-1.15 do
"Second, f.1.02½-1.05 do
"Stock of all kinds of R. Plate wools, 34-35,000 bales.
"Hides—
"Dry mat. novillo hides, 29-30 lb Spanish weight, fs.130-132 per 50 kilos.
"Salted saladero cow hides, under 20 kilos, fs.60-62 per 50 kilos.
"Stock from 200,000-210,000 hides of all R. Plate kinds.
"1,750-2,000 barrels of sugar were exported to B. Ayres during the last fortnight of the month of August.
"Exchange on London, 3 months' sight, at fs.25.27-25.28 per £ sterling."

Mr. Printzenskold despatched yesterday in Rosario the following vessels:—

Brit. barque Annie Austin for New York with 643,480 kilos of bones.

German barque Patria for Falmouth with 13,360 kilos ash, 297,898 kilos bones, 135 bales of rags, 28 pipes and 21 of tallow.

During the month of August the Central Argentine Railway conveyed 32,608 bags of sugar to Rosario. This was all Tucuman sugar.

Operations on the Montevidean Bolsa ruled rather dull yesterday and the prospects of the market were not of a nature to encourage hopes of any activity this fortnight. The quotations of Unified stock show no change, but there is a weak feeling in the speculation. At a late hour a London telegram from Consul General Cranwell was posted, announcing that Unifieds had advanced to 52½. This is a rise of ½ o/o since the beginning of the month, but the news came too late to produce any effect on yesterday's speculation. Not a single operation was reported during afterhours. The money market, strange to say, has already begun to show a stiffening tendency, no doubt owing to the large remittances made to this market, and if B. Ayres speculators continued paying from 2 to 3 points difference per month on gold operations, we may look forward to still larger remittances from the Mount and to a tight money situation in that market. Fair amounts of exchange were passed yesterday at 50¾d.

5,000 qq. of habanera and bonita jerked beef, from a saladero in Colon, are reported sold at 23 rls.

The North American pilot boat Ada Caylay ran against the steamer Proveedor yesterday morning at Rosario. The steamer suffered slight injuries, and her Captain has lodged a complaint in the Sub-Prefectura of Rosario, claiming damages. Mr. Eggert has been named valuator in the business.

The steamer Hesperides left Rosario yesterday to load 1,000 tons of cereals at San Lorenzo for Liverpool.

The North American barque Archer has opened register at Rosario to load 450 tons of produce for Boston.

The steamer Emilia left the port of Sta. Fé with a cargo of flour. She arrived at Rosario yesterday.

The following vessels are at present unloading at Rosario:—

Norw. barque Siegfrid, coal, from Liverpool.
Norw. bgt. Victoria, general cargo, from Marseilles.
Brit. bgt. Aldine, lumber, Portland.
Aust. barque Lussignano, gen. cargo, from London.
Norw. barque Bleidcblick, lumber, from Brunswick.
Brit. bgt. Henrys, pich pine lumber, from Fernandina.

Rosario shipping circles are far more active than in B. Ayres, and it is incredible to see how steamers fill with grain up the river. Rosario, San Lorenzo and Sta. Fé are filling the steamers, whilst B. Ayres is swept clean of produce.

Our Rosario colleague state that rents in that go-ahead town are going to the skies, in view of the scarcity of houses and of the incredible increase in population and business. Houseowners are getting unprecedented returns on their capital and everybody is complaining of the extortionate demands of landlords. Small dwellings, with five rooms, at six squares from the Plaza, are easily rented now at $50 and 70 m/n. What is the Building Company doing? Are the Board and the shareholders asleep? The squeeze for houses in Rosario appears to be far greater than in B. Ayres.

A provincial colleague calls attention to the splendid results of the Mocoreta saladero which has slaughtered about 300,000 head of cattle since 1879. This saladero is situated on the river Mocoreta, which divides Corrientes from Entre Rios, on the line of the Eastern Argentine Railway. Its situation in the Province of Corrientes is a great advantage, as in that Province there is no $1.50 gold tax per head slaughtered. A contract has been made with the railway company for the conveyance of all the produce of the establishment to Concordia, for several years, at $0.41 gold—this is no doubt per ton.

The following sales of real estate were registered yesterday:—

58 A, between Chavango and Melo, 8.66 by 25.93 mts., 2,000 m/n.

Salta No. 598, 8⅝x43.73 mts., 5,000 m/n.

Misiones, between Alsina and Moreno, 7.79 by 48.49 mts., 5,000 m/n.

Brandzen, 10.392x34.64 mts., 948.66 m/n.

Avenida Montes de Oca, 14.85x15.50 mts., 5,000 m/n.

Rioja, between Brasil and Garay, 9.959 by 38.104 mts., 12,000 m/n.

Junin, between General Lavalle and Tucuman, 9,353x32.735 mts., 2,376 m/n.

Gallo, two lots, one of 7.794x25.980 mts. and the other of 7.784x34.64 mts., both for 956 m/n.

Charcas No. 705, 9.92x27.51 mts., 6,450 m/n

Rivadavia No. 449 and Libertad No. 230, 30.31x58.2 mts., 131,200 m/n.

Double Bow No. 200	5½ 6 & 7	" "
Special Nos. 26 & 27	5½	" "

The superiority of these Shears over those of any other make is fully borne out by the numerous testimonials in possession of the undersigned; such as the following:—

Sr Don F. G. Walker,

Estancia "Sauce Chico,"

Bahia Blanca, Febrero 23, de 1885

"En contestacion a la pregunta de Vds debo decir que cuando mande pedir Tijeras Chicas No 26 y 27 de Ward y Payne segun las muestras que Vds me remitieron, Vds me contestaron que estas ya se les habian concluido. Rubiera deseado tener mas de ellas pues tenian aqui mucha aceptacion. Las Tijeras que hemos empleado en este Establecimiento este año han sido los Nos 100 y 125 de Ward y Payne marca Bigornia."
